

CNC turning

Using CNC turning, Eisenmenger produces complex turned parts to the highest level of repeatable accuracy automatically thanks to state-of-the-art computer controlling technology.

Advantages of the CNC process

- Clean work
- Increased productivity
- High volume while maintaining quality
- Reduction of tool wear (thanks to constant conditions)
- No manual intervention is required (except for tool offsets)
- Constant production times (planning of production)
- Wide variety of processing options
- Machining of complex work pieces

Processing sizes

- Maximum turning diameter: 720 mm
- Maximum turning length: 2000 mm

Eisenmenger GmbH CNC lathes

- Okuma LB15
- Padovani Labor E
- DMG CTV250
